Elites Congo
SARL

- **Cleaning and maintenance**
- Civil engineering
- Incubation of industrial projects

Limited liability company (SARL), concessionaire of goods and services. We specialize in civil engineering, industrial project incubation and corporate cleaning and maintenance.

We offer our services with the aim of satisfying the specific needs of companies in the industrial or tertiary sector, communities, administrations and individuals within the framework of contracts or one-off services, by providing effective and safe techniques to maintain and preserve their investment.

We are always very close to you and always at your side. Our teams of qualified technicians, available, constantly trained in the most modern techniques, having a spirit of initiative, responsibility, real competence, endowed with immediate responsiveness, and to whom we transmit the spirit of optimal service. This staff will seduce you with their discretion, politeness, discipline and impeccable services.

Created in 2017 and registered in the Trade and Credit Register in 2020 after several participatory investments in several former projects. Elites Congo SARL is a company which receives its dynamism from its young partners.

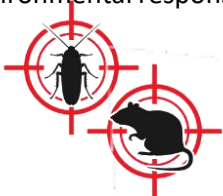

➤ Waste Management

Effective waste management is essential for maintaining a clean and sustainable environment. Our services include:

- **Collection:** Regular and efficient waste collection from residential, commercial, and industrial areas.
- **Recycling:** Sorting and recycling of materials to reduce landfill use.
- **Disposal:** Safe and environmentally friendly disposal of non-recyclable waste.

Our team is committed to delivering high-quality waste management solutions that meet regulatory standards and promote environmental responsibility.

➤ Pest & Rodent control

- **Prevention:** Seal entry points and eliminate food sources.
- **Cleanliness:** Maintain a tidy environment.
- **Identification:** Look for droppings and nests.
- **Treatment:** Use traps and repellents.
- **Professional Help:** Work with experts for severe infestations.

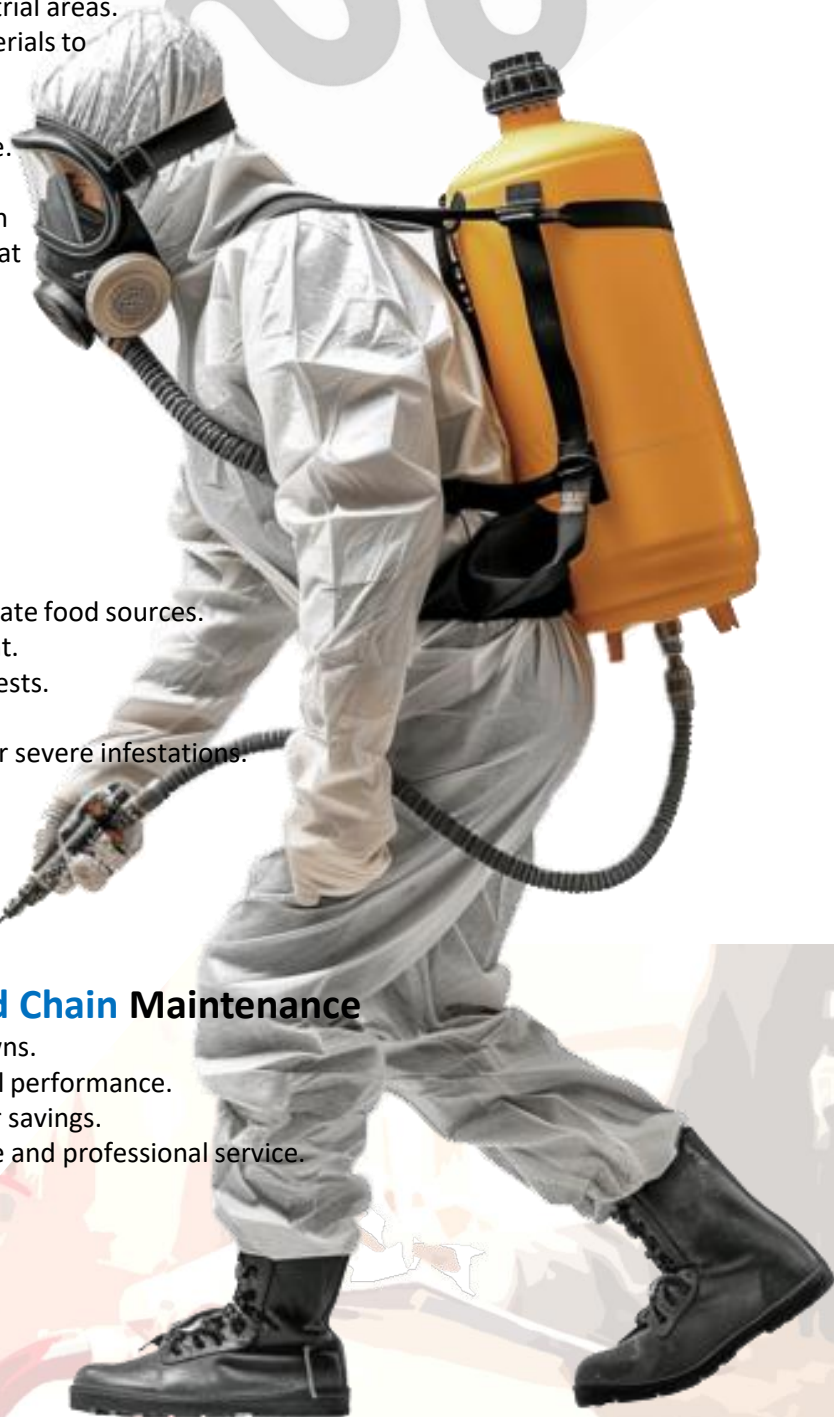

➤ Air Conditioning and Cold Chain Maintenance

- **Regular Inspections:** Prevent breakdowns.
 - **Cleaning and Repairs:** Maintain optimal performance.
 - **Energy Efficiency:** Optimize systems for savings.
- Our certified technicians provide reliable and professional service.

➤ Snake Repelling services

- **Natural Deterrents:** Essential oils, specific products and plants.
- **Physical Barriers:** Secure fences and sealed cracks.
- **Decoy Devices:** Keep snakes at bay.
- **Professional Removal:** Safe and efficient solutions.

Fire Extinguisher Maintenance and Supply

- **Safety First:** Regular inspections ensure safety.
- **Fully Charged:** Maintain extinguishers for emergencies.
- **Certified Professionals:** Annual expert checks.
- **Ready at Hand:** Strategic placement of extinguishers.
- **Compliance:** Adhere to safety regulations.
